

# Md Irfan

Frontend / Full Stack Developer

7097136750 | Email | LinkedIn | GitHub

## SUMMARY

Frontend Developer skilled in **React.js, JavaScript, Tailwind CSS, and REST APIs** with hands-on experience building responsive and scalable web applications. Strong foundation in **component architecture, API integration, debugging, and state management**. Experienced in full-stack development using **Node.js, Express.js, MongoDB**. Passionate about clean UI/UX, optimized performance, and building real-world products.

## EDUCATION

**Rajiv Gandhi Prodyogiki Vishwavidyalaya**

*Bachelor of Technology (B.Tech) in Electrical, Electronics and Communications*

Bhopal, India

May 2021 – Aug 2024

**Maulana Azad National Urdu University (MANUU)**

*Diploma in Engineering*

Hyderabad, India

2017 – 2020

## EXPERIENCE

**Full Stack Developer Intern**

*ZyrixCraft*

Jul 2025 – Present

*Remote*

- Developed and deployed **full-stack applications** using React, Node.js, Express.js, and MongoDB, improving client workflows and task efficiency.
- Built **responsive UIs** with React and Tailwind CSS, ensuring smooth cross-device performance and optimized load times.
- Improved application **performance and maintainability** through modular components, clean coding practices, and effective debugging.
- Integrated **REST APIs**, handled authentication, and streamlined data flow using efficient state management and async operations.
- Collaborated in Agile sprints, participating in feature planning, code reviews, and deployments using Git and GitHub.

## PROJECTS

**CloudVault [Node.js, Express.js, MongoDB, JWT, Cloudinary, EJS] |**

GitHub

- Developed a **secure cloud storage platform** with file upload, download, and role-based access workflows.
- Implemented **JWT authentication** for protected routes and admin/user access control.
- Integrated **Cloudinary** for optimized cloud storage and scalable media handling.
- Designed responsive UI using EJS, improving usability and user task efficiency.

**Employee Management System (EMS) [React, Tailwind CSS, LocalStorage] |**

GitHub

- Built an EMS enabling admins to **assign tasks, track progress, and view analytics** using dynamic dashboards.
- Created personalized employee dashboards for workflow tracking and task management.
- Implemented **React Hooks, component architecture, event handling**, and optimized UI state flow.
- Designed a fast and responsive frontend using Tailwind CSS and reusable components.

**Tic Tac Toe Game [HTML, CSS, JavaScript] |**

GitHub

- Created an interactive two-player game with **win detection, turn logic, and reset functionality**.
- Implemented gameplay using **JavaScript logic, DOM manipulation, and event handling**.
- Built a user-friendly and responsive interface demonstrating strong front-end fundamentals.

## TECHNICAL SKILLS

**Frontend:** HTML, CSS, JavaScript, React.js, Tailwind CSS, Responsive Design

**Backend:** Node.js, Express.js, REST APIs

**Databases/Cloud:** MongoDB, Cloudinary

**Tools:** Git, GitHub, VS Code, Postman

**Security:** JWT Authentication, Sessions
